

# About Us

## Steering Committee

The Steering Committee formed at the conclusion of the first OA-Shellfish workshop in 2010 to guide the future development of C-CAN. The Steering Committee is responsible for initiation and oversight of all C-CAN activities. The Steering Committee meets by conference call on a quarterly basis.

- [Steve Weisberg](#) (Southern California Coastal Water Research Project (SCCWRP))

- [Bruce Steele](#) (California sea urchin diver – [winfieldfarmerbruce@gmail.com](mailto:winfieldfarmerbruce@gmail.com) )
- [Diane Pleschner-Steele](#) (California Wetfish Producers Association)

## Methods Subcommittee

The Methods Committee is responsible for creation/review of all technical products related to development of a

coordinated monitoring network. The Methods Committee meets via conference call on an as needed basis.

- Alan Barton
- Andrew Dickson
- Burke Hales
- Benoit Eudeline
- Joe Salisbury
- Dwight Gledhill
- Karen McLaughlin
- Simone Alin
- Todd Capson

## **Webinar SubCommittee**

The webinar committee is responsible for creation and implementation of a webinar series intended to inform C-CAN members about recent advancements and management issues associated with acidification on the US West Coast.

- Libby Jewett
- Jan Netwon
- Andrew Dickson
- Diane Pleschner-Steele
- Bruce Steele
- Brad Warren
- Jennifer Bennett

## **Website SubCommittee**

The website committee oversees the structure and content of the C-CAN website, which is hosted courtesy of the California Wetfish Producers Association. The purpose of the C-CAN website is to disseminate C-CAN products, relevant information and linkage to the various entities researching OA on the west coast.

- Diane Pleschner-Steele
- Teri King
- Steve Weisberg
- Jan Newton
- Gretchen Hofmann
